PERIMETRIC CATWALK SUPPORT:

The structure/profile to support the intermediate catwalk at the side walls and at the two end walls has to be supplied by the Customer in accordance to the local rules and regulations and have to be calculated based on the maximum distributed load on the catwalk as indicated in our Lay-out drawing at "225kg/sqm".

The intermediate catwalk must be bolted to the equipment at one side (cage equipment side), and it must be free standing (not fixed/bolted) on the side walls and at the two end walls.

Company Stamp and Customer's Signature for acceptance
