- Overall dimension for optimized density
- Easy and quick installation
- Essential design reducing gaps for red mites
- All drinking lines adjustable in height
- Feeding supply system by flat chain inside the cages
- Available in multi-tier configuration with intermediate catwalks
- Improved manure cleaning drive for easy maintenance
- Available with or without "pvc" duct for manure drying
- Swing doors for an easy opening of the cages
- Folding front grid for converting the cages into aviary system
- Dimmable LED tube lights inside
- Wire mesh ramps into feed trough on each cage partition avoid birds trap when flat chain run
- A continuous perch above the feed trough, minimizes feed spillage and prevents the pullets entering the feed trough
